# Who Are We?

Landmark IT is the initiative of a group of individuals who have honed their skills, time and energy working for a powerhouse U.S Multinational company for over a decade. The vision to begin Landmark IT was heralded by the thirst to motivate similar growth among small-scale businesses who are novice to the brilliance of web space recognition. Having understood firsthand the perks, the recognition, the momentum and USP of being noticed in the communicative media, Landmark IT was founded to help small ventures become bigger establishments.

We have headed more than 125 projects and worked closely with 25 companies, molding them and visualizing their potential to succeed every step of the way with 176 years of combined service.

***We are the right choice for all your IT needs.***

***Know How....***
